The stylish and clean characters' presentation, as well as the lip-sync to your script's voice. The flexible movements and the images displayed by the characters provide an impressive pull on viewers. The full 3D character can be added to your project. You can get high-quality, well-organized character projects.

You can customize the coloring of the character to what you like. Create natural-looking character actions by combining motion, and setting the timing, and lipsyncing in accordance with the audio voice. The whole process can be described as Simple, Easy, Fast!

Be aware of the characters that are in different styles starting today. The lineup will be continuing.

**This character is perfect for:**

Presenter, Lecturer, Announcer Guide, Narrator, Model, Teacher and Show Host.
