To search for similar products to Cinetools Cinematic Tension Horror WAV-FANTASTiC,

There's a wide variety of tension-building sounds that are inspiring, including disturbing ambients, dark soundscapes, drones that rumble, and aleatoric orchestral sounds, as well as deep booms, impacts, and many more. The sounds are all hyper-detailed and can be layered and altered. They can be used in your projects in the case of music for horror films and creating exciting backdrops, dark and spooky underscores, frightening video game compositions, and spooky scores.

Every sound was recorded at 192kHz/24-bit, created and delivered in 96kHz/24-bit to ensure the best quality sound for the current Cinematic production needs. The sound was edited to be immediately used in your creative projects or processing.

The sounds were created using Rode NTG-3, Rode NT4, Rode NTG-8, Rode NT1, Audio-Technica BP4025 AKG C411 PP Sound Devices 722, Sound Devices MixPre-10T, Zoom F8 Zoom H6 Tascam Dr-100MKIII Tascam DR-44WL.

Each of the samples has been cleared to be 100% genuine and Royalty-Free to use at no additional licensing charges.

What is Cinetools Cinematic Tension Horror WAV-FANTASTiC?

"Cinetools Cinematic Tension Horror WAV-FANTASTiC" is a specific sound effects library or audio sample collection, likely designed for use in cinematic and horror-themed projects.

These types of sound effects libraries are commonly used by filmmakers, video game developers, and sound designers to enhance the audio experience in horror-themed projects. They can include a wide range of sounds, from eerie whispers and ambient noise to unsettling musical cues and startling effects, all designed to create a sense of tension and fear in the audience.
