What is Carpe Drill?

"Carpe Drill" is a product or a sound pack offered by Godlike Loops. In this context, a collection of MIDI tracks and loops inspired by various artists in the drill music genre, including Pop Smoke, CJ, Travis Scott, and others.

MIDI tracks are sequences of musical data that can be used to control and generate sound in software and hardware synthesizers. Loops are short sections of music that can be repeated seamlessly, often used in music production for creating rhythmic and melodic elements.

If you have this sound pack, you can use the MIDI tracks and loops in your music production software to create your own drill music or incorporate them into existing projects. It's designed to capture the style and influence of the mentioned artists in the drill genre.
