Corporate Event Promo - AE Project VH-33829892: It is a great **After Effects** template that is ideal for event planners corporate, entrepreneurs, or coaches. You can use it to advertise an event for business or forum or conference, a workshop, exhibition or training, meetup and present the program speakers, partners, and tickets, as well as invite participants and sponsors, as well as a trailer or event's opening.

Make your viewers swoon with this modern and minimalist style. The stark black color we chose will give your videos a an emotional and dramatic design, which embodies top quality sophistication, style, and class. We enhanced it by using simple typography, big fonts as well as bold text graphics as well as smooth and fluid animation. You can personalize it using any typeface.

The idea is universal to any brand. You can make any mood with your colors or fonts as well as music. The design is extremely well-organized inside and simple to use.
