Retro Stories (Videohive 36782025) - AE Project: After Effects stories pack that can be used to create video podcasts as an opener or introduction to your program or presentation, or even an evening show on Instagram.

Get nostalgic with the muted hues, the bold geometric circles, and lines. This sophisticated style is an old-fashioned look but evolves in line with the current fashion. The bold font style is perfectly integrated with the colors to convey the vintage-inspired vibe.

Create a greeting card and the title, slogans, and phrases that describe your application and yourself. Incorporate your text and font, as well as video music, and create an original video that has your personal atmosphere. The project is well-organized inside and simple to use.
