- Improvements!

Easy, fast, and enjoyable!

Select your character's character and then enjoy picking the right points and that's it! There is no tedious and boring manual joint placement. Then you can adjust them to your liking if you need to.

Auto-Rig Presets!

Choose the type of rig you'd like to auto-create!

IKMAX Easy Rig Advanced Biped Biped Mixamo Rig...

1Click Binding Presets for Cloth!

Create the Skin weights for only the joints you require in one click instead of manually selecting the joints that will impact the object.

Fast-Attach!

Select the objects that you want to attach and click the body part on the interface that is specifically designed to limit them!

1Click Eye Controls

A new experimental feature that will automatically create "look-at" controls for your character's eyes. Just choose 2 eyeballs and done.

Everything is in one location.

The interface includes everything you need to have a speedy and enjoyable experience of bringing life to your models. Auto-rig using guides, auto-skin display options for rigs and mesh Test rig, switch to figure mode, etc...

In seconds Not minutes!
