

The Grid Collection - Mango Street Presets

2025-02-10 16:37:32 label 我要反馈 下载页面

This collection of presets will work in conjunction with Lightroom, Lightroom Mobile, and Adobe Camera Raw. These presets are designed specifically to be compatible using Lightroom Classic, but will also be compatible in conjunction with Lightroom CC 2015 and later.

The STYLES

Blues (3 Presets)

The blues are best suited to photos that have even lighting and vibrant shades. The Blues create a deep contrast and increase the brightness of your pictures while keeping a natural-looking skin tone. They are ideal for photography of landscapes and travel.

Copper (2 Presets)

We created these presets using our travel bloggers in our minds. They work best if they have reds and blues since it gives the reds appear more copper while the blues appear a bit washed out by a more aqua-colored hue. Much like a pair of worn jeans from mom. Keep these colors in mind when planning your shoot.

Golden (3 Presets)

We came up with this Golden style with the influencers in mind. It is a great way to show contrast and gorgeous colors and truly elevates your golden hour pictures to the highest step.

Grays (4 Presets)

The Grays were designed for our dark bi-atches. They're ideal for an urban and gritty scene. This is especially useful in photos where there's not an abundance of color at all. If you're planning to shoot with this type of style, you might consider wearing your subjects in the black-and-white color scheme.

Tans (2 Presets)

The tans are one of the best Lifestyle bloggers presets. Warm tones to go with your happy mood, this preset can be used on many images. Browns, greens, and reds thrive in this climate.

Whites (2 Presets)

Last but not least one of our top styles of the entire collection. Are you a minimalist who enjoys shooting clean interiors and simple lifestyle vignettes, thinking "where's my grid presets?" Well, they're here for you, don't!
