IMPORTANT NOTES

- Origami generates fragments of different Once layers, therefore it's very important to understand when working with countless layers that the AE motor isn't too quick. Experiment to observe the gap between 100 and 10. We have been operating for more than a year and we are confined by following Effects' processing period, which we can not influence.
- Origami does not work with Bezier shapes, however. We're currently focusing on a polygon clipping algorithm. For today Origami will utilize hide or shape vertices.

v1.4:

- AE2020 support
- Minor code optimization
