The resolution is configured at 1920x1080, with a total file size of 655MB. It offers 300 media placeholders alongside 300 text placeholders.

What is Earth Zoom Toolkit Pro?

Earth Zoom Toolkit Pro is an After Effects project file that allows users to create dynamic and visually appealing animations of zooming into different locations on Earth. It's a toolkit that provides various elements and tools to customize and create these zoom animations effectively.

The toolkit typically includes pre-made Earth maps, markers, and other elements needed to create the zoom effect. Users can customize the animation by selecting locations, adjusting the zoom level, adding markers, and incorporating other visual effects to enhance the presentation.

Overall, Earth Zoom Toolkit Pro is a valuable resource for video editors and motion graphics artists who want to create professional-looking Earth zoom animations for presentations, documentaries, or other multimedia projects.
