Dynamic Phone App Promo - AE Project VH-25293649:

The **After Effects** template contains 12 mockups with a modular structure, which means it is possible to change the duration. It is perfect for presentations and promotional of mobile-friendly websites or any other app on iOS. Make use of **the black** as well as **white color phone**.

Typography's dynamic animation gives motion to your video and draws the attention of viewers. Place footage in placeholders, modify the text and change colors the way you'd prefer. The user-friendly interface makes it easy to create it quickly.

- After Effects CC 12 and later
- HIGH HD (1920x1080) | 30 frames per second
- Every scene has its own unique animation
- **Modular structure**
- Each scene consists of 12 sequences, lasting of them lasting 9 minutes.
- **White and black phone color**
- Fast rendering
- **No plugins required**
- It is very easy to edit.
- **Control panel for effects Adjusting with a single click**
- The Helpful file includes a detailed explanation.
