Passper for Word is a powerful tool designed to recover passwords and remove restrictions from Word documents, ensuring accessibility and usability for users encountering password-protected or locked files. With its advanced technology and GPU acceleration support, boasts an exceptionally high success rate in password recovery, offering up to 10 times faster results compared to traditional methods. Whether users have forgotten passwords for opening Excel documents or need to unlock encrypted Word files, this tool provides a reliable solution to regain access to their data promptly.

The software offers a comprehensive approach to addressing common issues with locked Word files, such as the inability to print, edit, or copy content. **Passper for Word** equips users with four intelligent attack methods for password recovery, including Dictionary Attack, Combination Attack, Mask Attack, and Brute-Force Attack. These methods are tailored to efficiently reduce candidate passwords and expedite recovery, ensuring users can regain control over their documents swiftly and effectively.

Moreover, **Passper for Word** guarantees a 100% success rate in removing editing and formatting restrictions from Word documents without compromising the integrity of the original data. Its user-friendly interface and straightforward three-step process make it accessible to users of all levels of expertise, allowing them to recover passwords or remove editing restrictions easily and confidently. Overall, **Passper for Word** is a versatile and indispensable tool for anyone dealing with password-protected or restricted Word documents, offering efficient solutions to various document access challenges.

Key Features of Passper for Word:

- 1. Password recovery for Word documents with the highest success rate
- 2. Instant removal of editing restrictions from Word documents
- 3. GPU acceleration support for up to 10 times faster password recovery
- 4. Ability to recover passwords for opening Excel documents
- 5. Support for unlocking encrypted Word files
