Spectrum Script - Handwritten Font: Introducing Spectrum, a captivating handwritten signature style font meticulously crafted to bring a natural and authentic texture to your designs. Whether you're working on branding projects, quotes, posters, homeware designs, product packaging, t-shirts, business cards, social media graphics, or greeting cards, Spectrum is the perfect choice to add a touch of elegance and personality.

How can we give our text a handwritten look?

You can use "Spectrum Script - Handwritten Font."

This versatile font comes with a complete set of lowercase and uppercase letters, along with a wide range of punctuation, numerals, and multilingual support, ensuring compatibility with various languages and design needs. Additionally, Spectrum includes several ligatures and stylistic alternates for both lowercase and uppercase characters, allowing you to create visually stunning and unique typography compositions.

Accessible in Adobe Illustrator Glyphs panel or Adobe Photoshop OpenType menu, these ligatures and alternates offer even more flexibility and creativity in your designs. However, even without OpenType-specific software, Spectrum can still be utilized with its standard lowercase and uppercase letters.

"Spectrum Script - Handwritten Font" Samples:

The package includes both .otf and .tff files, making it accessible for a wide range of design software. Elevate your designs with Spectrum, where handwritten charm meets versatility and sophistication.
