SqlDbx is Constructed around an Innovative SQL Editor and Database Object Explorer. SqlDbx provides a consistent user interface between various DBMS Systems. The intuitive and simple interface makes it possible for developers to boost their productivity using easy access to popular attributes. Run queries, execute scripts, and also navigate database items without leaving the editor window. SqlDbx is a standalone executable file, requiring no setup, leaving the consumer’s computer unmodified.

SqlDbx Professional Edition enables access to numerous Database Servers also includes unlimited email support.

SqlDbx Professional comprises two variations: ANSI and UNICODE.

SqlDbx Pro Great Features:

- High-performance native support for major Database Servers including Microsoft, Sybase ASE, Oracle, IBM DB2 zOS/iSeries/LUW, Informix, PostgreSQL, Teradata, MySQL
- Browse and Explore Servers
- Fast, intelligent, extensive, and highly customizable Intellisense
- Advanced Script Editor with Syntax highlighting, AutoComplete, Speed Typing, Script Variables, Drag/Drop, Column (Block) Mode
- Automatically highlight matching parenthesis for BEGIN/END, IF/END IF, CASE/END, ... SQL blocks
- Full Unicode support
- x86 and x64 Versions
- Visual Schema and Data Diff, File Diff, Quick Diff
- SQL Object Scripting
- SQL Formatter and Beautifier
- Generate SELECT, INSERT, UPDATE, DELETE, CREATE, WHERE IN data modification statements directly from Result Grid
- SQL Templates with support for formal parameters
- Parameterized Queries and substitution variables
- Import / Export to CSV, XML, Excel
- Schema Object browser
- SQL statement execution history
- Favorite objects. Find object
- Search in Database and Result Grid
- Directly edit table data in Result Grid
- Group, total, sort, filter, format, retrieve parent and child data rows, export and transpose data in Result Grid
- Execute procedures and functions with automatic argument specification
- Graphic Query Execution Plan and Query Statistics
- Administrative Views
- Portable mode
- Localized in 10 languages
- Simple deployment. No DLL's or other dependencies. Just one executable (2.0 meg.)
