Create this Soft-Focus Latte Cup Mockup: It's fantastic to see your design appear on an item! So, mockups are essential to promote your designs on surfaces.

In this class, you'll discover how to transform this latte cup with a soft-focus design into a mockup.

We'll begin by creating some layers in Photoshop using the straightforward Mockup academy method.

You'll also learn how to stretch the artwork to resemble wrapping itself around the curving surface. You'll also learn how to blur the art until it is seamless and realistically integrated into the image.

You'll also be taught how to utilize specific focus techniques to create drama and interest in any sketch.

It is necessary to understand some Photoshop fundamentals; however, you don't have to become experienced. My goal is to make things as simple as possible, so even if the beginning stages of learning Photoshop, you'll know how to move your instructions quickly.
