Kohki – Portrait Essentials Preset:

Make your photos more attractive with my Portrait Photoshop presets!

This preset works well for the majority of your photos. This is the exact setting I've used for most of the photos you see on my Instagram.

No matter if you're an experienced photographer or a new photographer looking to take simple, yet elegant portraits The preset pack contains everything you require. It has golden light, daytime and nighttime neon presets that everybody is raving about! I've been asked about what I do to edit my portrait photos over the years, so I am extremely eager to share my own portrait presets.

Gfx plugin details of Kohki – Portrait Essentials Preset

The product is in the **Lightroom category**, for more information about this post you can click on the home page link in the sidebar.
To search for similar products to Kohki – Portrait Essentials Preset,

- Note It is lightroom preset, which is a digital product to improve your photographs. The Lightroom preset might require some minor adjustments since each photo differs in terms of lighting, tone, and the environment.
- It is important to note that skin retouching is not a requirement.
- To ensure you get the best from the presets, make sure you use a similar image as the one I've shown in the before and after.
- The preset pack contains eight presets.
