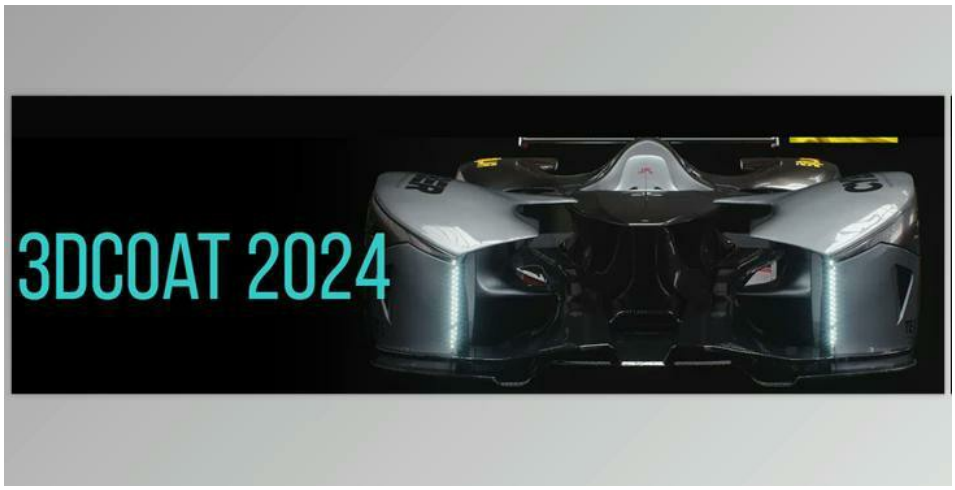
3D-Coat v2024.32 (Win)

2025-02-10 16:39:02 label 我要反馈 下载页面



- Multiresolution for the surface sculpting
- The sketch tool substantially improved
- Painting
- Volumetric painting and color are completely supported
- Import-Export
- UV
- UI
- Blender Applink
- Export of meshes as IGES format enabled
- Molding tool in the Undercuts

about 3DCoat

3DCoat is the software that comes with the tools required to transform your 3D concept from a piece of digital clay to a ready-for-production fully textured organic model of the surface.

Features

DIGITAL SCULPTING

- Voxel sculpture that is free of topological limitations
- Complex boolean operations that have sharp edges
- Dozens of fluid and fast brush sculpting brushes
- Dynamic tesselation that is adaptive

EASY TEXTURING & PBR

- Microvertex Per-pixel, Microvertex, or Ptex painting methods
- Realtime Physically Based Viewport with HDRL
- Smart Materials that are easy to set up with simple options
- Size of text up to 16k

100% Virus FREE and Safe
