The Film Emulation Collection is for photographers who want professional presets for film emulation. Each preset was designed to create stunning film-like looks for the modern photographer. Make your workflow easier with presets and increase your flexibility by using our customizable profiles. Works to Lightroom, Lightroom Classic, and RAW.

This collection digitally replicates popular film styles like Kodak, Fuji, Agfa as well as Polaroid film. Create a range of unique film-inspired looks with Adobe Lightroom 4 and the latest version of Lightroom, Lightroom Classic, and Camera Raw! It is perfect for all kinds of photography such as landscapes, weddings, social media as well as portraits and cityscape photography. Create stunning film-like photos with just a few clicks!
