Blender Market – Noodler: Noodler, the enchanting wand for node sorcerers, adds a dash of magic to your workflow:

Draw Frames: A wrist flick (a press of J) and frames appear, ready to house your creations.

Draw Routes: Summon connections effortlessly with V as you weave intricate webs between input and output sockets.

Favorites: Mark your chosen ones with CTRL+Y, then glide through them with the elegance of a seasoned wizard using Y.

Color Palette Assign: With a wave of your digital palette, color the selected nodes, turning your canvas into a vibrant tapestry.

Reroute Chamfer: Give your reroutes a touch of finesse with CTRL+B as if you're sculpting the very flow of your magic.

Downstream/Upstream Selection: Master the currents of your nodes with CTRL+LEFTMOUSE or CTRL+ALT+LEFTMOUSE, selecting downstream or upstream nodes at will.

Advance Node Search: Unleash the power of the arcane search in the N panel, swiftly finding the nodes you seek.

Purge Unused: Clear the mystical clutter with your hand, banishing unused nodes or elements from your realm.

Noodler: where every keystroke is a spell, and every node is a part of your magical tapestry.
