**Stylized Hair PRO v3.14 for Blender:** Introducing Stylized Hair PRO, an innovative add-on for Blender versions 4.00 and beyond, designed to revolutionize the creation of stylized hairstyles through a procedural, Geometry Nodes-based approach. This tool seamlessly integrates with Blender's hair curve system, offering artists a comprehensive set of features to effortlessly shape, refine, and animate hair designs.

### How can we create stylized hairstyles in Blender?

You can use "Stylized Hair PRO."

From controlling geometry and materials to adding ornaments and dynamic wind effects, Stylized Hair PRO empowers users with unprecedented flexibility and control over every aspect of hair creation. Noteworthy improvements include enhanced braid generation with customizable endpoints, dynamic wind effects for realistic animations, and the ability to deform custom hair meshes or other geometry along curves.

### "Stylized Hair PRO" Samples:

Furthermore, the add-on streamlines workflow with utilities such as curve conversion from traditional methods and customizable mesh and armature generation, all while optimizing performance for enhanced productivity. With a thoughtfully organized user interface and disabled settings providing clear guidance on required actions, Stylized Hair PRO sets a new standard for hair design in Blender, unlocking limitless creative possibilities for artists.
