

### Augmented Reality for Anybody

2025-02-10 16:43:02 [label](#) [我要反馈](#) [下载页面](#)

**Augmented Reality for Anybody:** Embark on an exciting journey into the world of augmented reality (AR) design with Adobe Aero through this comprehensive course. Explore how AR is revolutionizing digital content interaction and discover how Adobe Aero simplifies the creation of immersive AR experiences without complex coding.

Throughout this course, delve into the fundamentals of augmented reality while mastering Adobe Aero's robust features and capabilities. Learn to utilize 3D scientific assets to craft engaging learning projects and leverage triggers to add interactivity to UI components.

Additionally, uncover the potential of geospatial data as you create world-scale AR projects for desired locations using Google Maps integration within Adobe Aero. Access valuable course resources, including links for obtaining 3D assets and utilizing animated characters from Adobe Maximo to enhance your projects with dynamic motion effects.

Whether you're a designer, artist, educator, or AR enthusiast, this course is tailored to equip you with the knowledge and skills needed to bring your AR ideas to life.

**Who this course is for:**

- Educators
- Teachers
- AR Enthusiasts
- Lifelong Learners
- Designers
