There are 50 professionally-designed color schemes that include 5 well-balanced shades each.

In order to create them, I drew inspiration from the latest and fashionable Pantone colors.

Of course, you have the option to print using Pantone colors for printing or using hex codes for digital printing and then print using CMYK or RGB.

These palettes have been specifically created to help you brand your business. Make use of them to spice up branding packaging, stationery, packaging social design, websites, and most importantly, to make your appearance stand out.

Bring your design to the next level by selecting the appropriate colors!
