The Following generation of Scopes and observation for scoring in After Effects.

Composed Completely from scratch as a native 64-bit plugin, QP Grade Assistant two provides another generation of monitoring and scopes for compositing and grading at After Effects.

Five scopes:

- Waveform track (Luma, and RGB viewpoints)
- NEW! Vectorscope, such as Hue Vectors graticule made by grading ace Alexis Hurkman
- Channel Parade (RGB and YCbCr viewpoints)
- Slice Waveform (Luma, and RGB viewpoints)
- NEW! Histogram (Luma, and RGB viewpoints)

Five screen designs:

- Full-screen only
- Four-way split
- Four-way Traditional
- Windowed (resize and move anyplace on-screen)
- Away (scopes just)

Fully customizable interface - use only the dividers you want for your task, and place them anywhere on the screen

Three extent sampling amounts - Top (1:1), Moderate (1:2) and Low (1:4) for optimal performance whatever your hardware

Alpha and Luma tracking in the Principal track; YCbCr tracking added into four-way set-ups

Plus all the Fantastic features from the first plugin:

- Compare with first (or other) coating
- Gamma (and currently Profit) Controls for assessing white and black amounts
