Blender Market - Human Crowd Simulation Addon:

Population is a powerful crowd simulation addon for Blender developed by Bproduction. It allows users to populate scenes with realistic 3D photo-scanned characters and motion-captured animations.

With 48 meticulously scanned characters categorized into casual, business, and sports, and a library of 55 high-quality animations, the addon enables the creation of dynamic, lifelike scenes in just a few clicks. Characters and animations can be customized, making the addon versatile for storytelling in various environments. Its optimized meshes and textures ensure high performance and stunning visuals in both Cycles and Eevee renderers.

- **48 Characters:** Divided into casual (23), business (12), and sports (13) categories.
- **High Detail:** Models created using photogrammetry and laser scanning for maximum realism.
- **Customizable Appearance:** Smart shaders allow for variations in clothing and hair color.
- **55 Animations:** Include walking, running, dancing, sports, communication, and daily life activities.
- **Realistic Movements:** Captured using advanced optical technology for exceptional fidelity.
- **Dynamic Interactions:** Characters can perform diverse tasks like sitting, dancing, or working.
- **8K Full PBR Textures:** Includes diffuse, roughness, AO, SSS, specular, and normal maps.
- **Subsurface Scattering (SSS):** Enhances realism by simulating light passing through the skin.
- **HD and Low Poly Versions:** HD (~20,000 faces) and Low Poly (~4,000 faces) options.
- **Performance-Friendly:** Optimized for smooth shading and rendering.
- **Crowd Mode:** Quickly populate streets, squares, or clubs with customizable crowd behaviors.
- **Single Character Mode:** Add individual characters for precise control and animation.
- **Quick Setup:** Ergonomic design with tutorials to get started in 10 minutes.
- Fully compatible with Cycles and Eevee renderers for stunning visuals.
- Perfect for creating bustling urban scenes, office environments, sports arenas, or casual settings.
