The Ultimate Visual Elements Pack gives an endless amount of possibilities to design something distinctive.

BRIDGING THE DIFFERENCE BETWEEN ANIMATORS and VIDEO Editors.

- Learning After Effects can be an extremely long-winded process one I've spent a lot of years studying as well as watching tutorials and studying at the university level.
- I developed this pack over a long period to integrate these assets into my workflow, allowing me to reduce time and work more efficiently.
- You can now easily incorporate these images into your next visualization, adding an extra element to your work in just a few seconds!

SUBMIT YOUR CONTENT TO the next level!

- **60+ 4K/ HD 25FPS** backgrounds and motion elements, **compatible with all major video editing software.**
- **Each element is customizable** or combined in your project to **produce amazing results in a matter of minutes.**
- A lot of the assets loop and span from 5-48 seconds.
- The two packs include 10 Prores 4444+ Alpha MOV. Files!

The possibilities of this pack are limitless... Add elements to your video and create custom OBS streaming themes, combine components to **create professional-looking content** and use them as displacement maps, or incorporate them into your project to increase the quality to higher levels!
