

Sounds of Coney Island WAV - Field and Foley

2025-02-10 17:10:13 label 我要反馈 下载页面

Sound designer and composer Ryan Majoris returns to Splice with "Sounds of Coney Island."

From arcades and boardwalks to theme bars and parks, SCI was meticulously recorded on-site to create a package that captures all the things that we are awed by about summer.

The focus is on sound design and foley filmmakers or content makers will be able to find many different environments to bring viewers into their summer adventures. The pack offers a wide range of one-shots, such as an experience on the famous Cyclone!

CSI also includes a selection of musical loops and one-shots suitable for tracks with warm summer vibes.
