Earth LUT Pack for FUJIFILM X & GFX Cameras 2.3: I'm a DP/Colorist along with a portrait photographer out of Mumbai, I have been utilizing Fuji cameras for quite a few decades now. I shot my next feature film with XT-2 As a B-camera that's on NETFLIX right today and out of there my love for Fuji only multi-folded. I moved to represent Fujifilm India out of 2019. I never needed Many difficulties with the colors, but I needed to keep Placing on every job.

These will be the most balanced LUTs you may find online. I analyzed and Tried countless online LUTs. This LUT package is the result of decades of Development to locate a balance in the colors that reflect my preference and aesthetic.

Update 1.2

1. Additional FLOG TO Classic Neg LUT
2. Made changes to the recommendations PDF

Update 2.0

1. Additional Flog into Peach LUT - to Minimalistic Bright low contrast appearance - Dial The seriousness in line with the demands.
2. Additional Flog to Warm Earth LUT - Gives you which Warm glowing look but punchier Blacks and contrasty Picture all around. Useful for storyline work.
3. Removed FLOG into Eterna Adjusted LUT
