Learn DIGITAL FASHION with Clo 3D and Marvelous Designer By Digital Fashion School:

Embark on a journey into the realm of cloth simulation and 3D fashion design with our comprehensive course covering the fundamentals of Clo 3D and Marvelous Designer. These cutting-edge virtual clothing simulation programs are essential tools in the fashion, gaming, and animation industries.

About This Class:

- Design clothes from the comfort of your home with ease.
- Visualize your ideas swiftly by rendering realistic 3D models in seconds.
- Embrace sustainable practices and minimize fabric wastage.
- Create captivating animations for social media and advertising campaigns.
- Explore various design concepts rapidly without the need for physical prototypes.
- Master the basics of cloth simulation technology.
- Transition seamlessly from fashion illustration to fashion simulation.

Lessons in This Class:

1. Introduction
2. Adding Avatars
3. Navigating the Interface
4. Mastering Navigation Controls
5. Adding Garments
6. Refining Garment Adjustments
7. Creating Garments from Scratch/Tracing Patterns
8. Seamlessly Sewing Garments
9. Enhancing Designs with Hoods
10. Incorporating Pockets
11. Crafting Custom Fabrics and Preparing for Export
12. Conclusion

Join us as we delve into the world of cloth simulation and 3D fashion design, empowering you to bring your creative visions to life with precision and efficiency.
