Bent Video Wall Intro Pack - AE Project VH-38880830: Bent Video Wall Intro Pack is a project pack for intros that is based on the idea of broadcasting video walls that have several video screens. It includes two different types of intros and three loop-able video scenes. You can upload your own videos or upload your photos in this project to showcase your videos or stock footage, or stock videos and images. There's an AE script that is included within the package to upload your images or videos to the video in just one click. Take a look at the video to learn more about how it operates. It's a simple edit of your project and doesn't require any plugins. The Project includes more than 300 placeholders for photos and video. The project is with Full HD resolution 1920x1080 version. This project is compatible with Adobe After Effects CC2019 and later versions. The music and stock footage included in the preview aren't included.

- High Definition Resolution Full HD 1920x1080.
- Compatibility with After Effects CC2019 and higher versions.
- Everything can be customized.
- It is home to 300 placeholders
- AE Script included for one-click replacement of a video
- No plugins are required.
- Video Help is available for customizing the project.
- Images/Videos used for preview Use Only. They are not part of the Project.
- Information about fonts is provided within the help File.
