Trendy Stories is a dynamically animated Premiere Pro template with awesome grunge designs, modern text animations, and smoothly transitioning effects.

It has five trendy glitch vertical stories to add to the Instagram account. It also comes with the capability to alter the color of the story.

They can be used to showcase your latest portfolio, products and portfolio, sports, fashion model, food, traveling holidays, family and family photographs. Make your mark with this stunning and imaginatively animated Premiere Pro template.

Premiere Pro CC 2020 & above

The preview videos are not included and do not have a CC BY license
