Motion Bro Split Handy Transitions (Videohive-21059280):

Technical requirements

- To utilize the Motion Bro expansion demands After consequences CC.2014.2 or even higher.
- To use presets with no extension (drag-and-drop method) requires After Effects CS6 or even higher.

How does it work

Split Handy Transitions are carefully crafted so that they're super-easy to utilize for All ability levels -- only place a transition-layer in the intersection of both Scenes and everything is ready to roll.

All traces operate with no need to perform Pre-compose or Media Placeholders. Transformed any material, that's put beneath the transition layer.

- Over 400 lively tweaks
- Supported any resolution up to 4K
- Supported any aspect ratio no matter Orientation -- landscape or portrait
- Without networking hodlers (adjustment layers system)
- Animation rate control in Real-time
- Ability to maneuver a Ridge center
- Ability to change management of this Strips Slides
- Capability to use in Premiere Pro (through the Dynamic Link). Tutorial
- Doesn't require advanced skills in Later Outcomes
- The music utilized in Promo (maybe not Comprised): From the Future Bass by Artlss
- Font used in Promo (complimentary): Muller
