Wouldn't it be great to have the ability to instantly change the mood or ambiance of your photos? What about correcting yellows that are too saturated by the harsh mid-day light? Perhaps you are looking for the perfect Autumn look for your Fall minis?

I'm giving you Gorgeous Greens!

This powerful package contains five Adobe Photoshop Actions that instantly change the mood and atmosphere of your image.

### Here's how they are called:

- Seafoam
- Orangesicle
- Butter biscuits
- turquoise
- Pumpkin pie

To create an entirely unique look, you can layer these actions on top of each other. To increase or decrease the intensity of the adjustments, you can adjust the opacity for each group.
