AI Video FaceSwap:

This innovative face-swapping app uses advanced artificial intelligence to recognize faces in videos and seamlessly replace them with a face of your choice. The application is designed to enhance social engagement through entertaining content creation, enabling users to share personalized videos effortlessly. With a one-time payment, users gain unlimited access, face swaps without watermarks, and support for a wide range of video and image formats. The app utilizes GPU CUDA acceleration to provide smooth, realistic results and operates on Windows 10, with recommended hardware specifications for optimal performance.

"AI Video FaceSwap" Sample:

- **Realistic Face Swaps:** AI-powered, high-quality face replacements in video content.
- **One-Time Payment, Unlimited Use:** No recurring fees, full access without data collection.
- **No Watermark:** Export videos watermark-free for a polished result.
- **GPU CUDA Acceleration:** Enhances processing speed and performance.
- **Multi-Format Support:** Compatible with video formats like MP4, MOV, AVI, MKV, WMV, FLV, GIF, WEBP, RMVB and image formats PNG, JPG, JPEG, BMP.

System Requirements:

- **Supported Platforms:** Windows PC (Windows 10, version 17763.0 or higher)
- **Memory:** 6 GB (minimum), 12 GB (recommended)
- **Processor:** Intel Core i7 or AMD Ryzen 7
- **Storage:** 512 GB HDD (minimum), 1 TB HDD (recommended)
- **Additional Hardware:** CUDA-compatible GPU
