**BeltMaker** offers comprehensive features for customizing belts through intuitive controls. Users can adjust the size, stitches, style, and additional details using sliders.

#### How can users adjust the size, stitches, style, and additional details using sliders in Blender?

They can use "Blender Market - Belt Maker" to design and set up their project.

Options include modifying length and stitch properties, and choosing between different styles such as flat or grooved. Features extend to adding buckles and extras, previewing high-poly details, managing low-poly settings for baking, and generating UVs with a checker material preview. Integration with Blender's curve modifier allows precise shaping while enabling the incorporation of custom meshes into BeltMaker's collections for buckles and extras."
