CData Drivers for Google Cloud Storage v24.0.9060 (21 Oct 2024) All Platforms + License Key

2024-12-18 23:02:00   label 我要反馈   下载页面
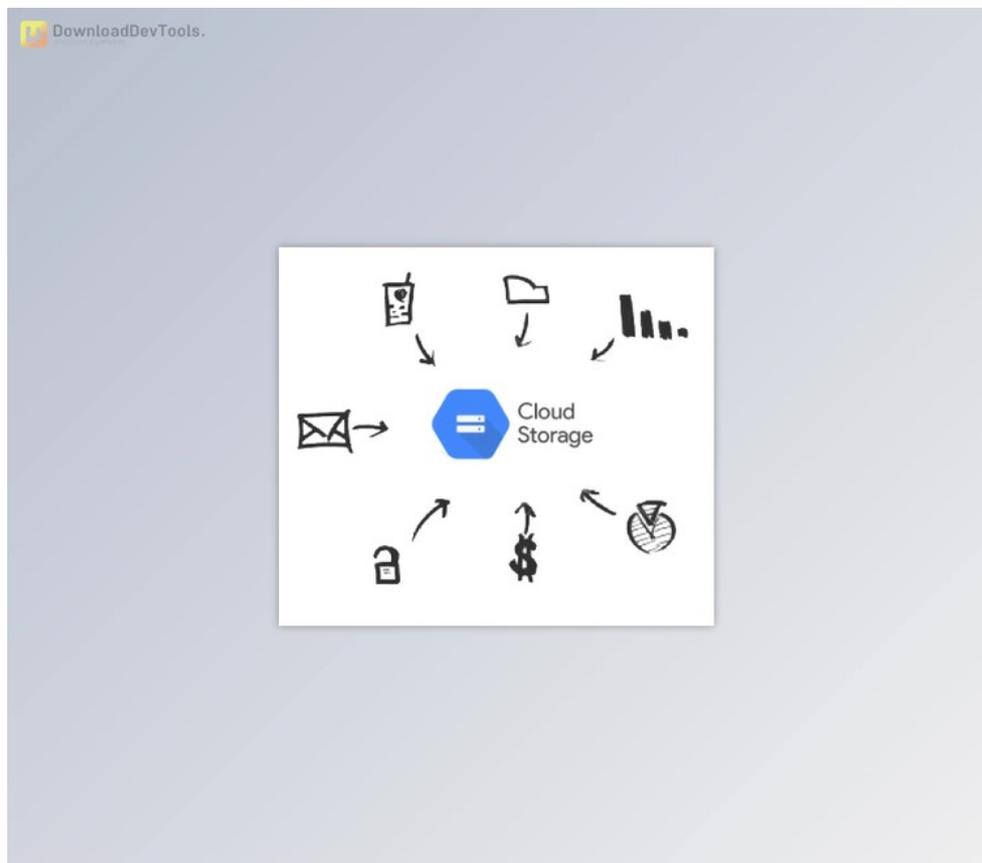

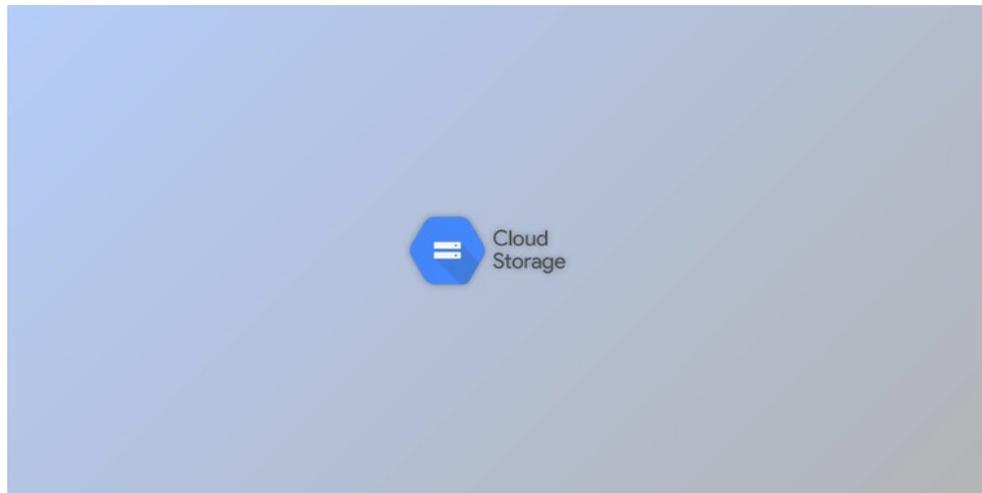

CData Drivers for Google Cloud Storage simplify data integration with their user-friendly drivers, facilitating seamless connections to live Google Cloud Storage data. This allows for effortless integration with BI, reporting, analytics, ETL tools, and custom solutions, enhancing flexibility across various applications.

In BI and analytics, these drivers stand out for their speed and simplicity in connecting real-time Google Cloud Storage data. They seamlessly integrate with preferred analytics tools, offering unparalleled query performance and comprehensive access to data and metadata. Beyond analytics, the drivers cover ETL, replication, and warehousing needs, enabling connections between RDBMS or data warehouses with Google Cloud Storage for operational reporting and robust data governance.

Developers benefit from the broad compatibility of , supporting popular database protocols like ODBC, JDBC, and ADO.NET. This ensures easy connection and management of Google Cloud Storage data across diverse database management applications. The drivers streamline integration with workflow and automation tools, providing straightforward access from popular applications like BizTalk, MuleSoft, SQL SSIS, Microsoft Flow, Power Apps, Talend, and more. With a data-centric model for expedited application development and advanced data virtualization features, CData Drivers for Google Cloud Storage offer a comprehensive solution for efficient and versatile data integration.

This package includes the following components:

- Excel Add-In for Google Cloud Storage
- Google Cloud Storage ADO.NET Provider
- Google Cloud Storage BizTalk Adapter
- Google Cloud Storage Data Cmdlets
- Google Cloud Storage FireDAC Components
- Google Cloud Storage JDBC Driver
- Google Cloud Storage MuleSoft Connector
- Google Cloud Storage ODBC Driver
- Google Cloud Storage Power BI Connector
- Google Cloud Storage SSIS Components
- Google Cloud Storage Tableau Connector

Key Features of **CData Drivers for Google Cloud Storage** :

1. Seamless connection to live Google Cloud Storage data
2. Integration with BI, reporting, analytics, ETL tools, and custom solutions
3. Accessibility to live data for BI processes, analytics, reporting, and custom application development
4. Unmatched query performance and comprehensive access to data and metadata
5. Support for ETL, replication, and warehousing needs
6. Connection of RDBMS or data warehouses with Google Cloud Storage for operational reporting and data governance
7. Broad compatibility with popular database protocols: ODBC, JDBC, ADO.NET, wire-protocol interfaces for SQL Server, and MySQL
8. Streamlined integration with workflow and automation tools
9. Easy access from applications like BizTalk, MuleSoft, SQL SSIS, Microsoft Flow, Power Apps, Talend, and more
10. Data-centric model for expedited application development
11. Advanced data virtualization features, including query federation through query delegation and predicate pushdown
