## Blender Market - Aqua Under Water Addon:

Aqua Under Water Addon features customizable water surfaces, allowing users to adjust color, transparency, and wave patterns, with presets for various water types, including oceans, rivers, and lakes. The addon also includes tools for managing underwater lighting, enabling modifications to light color, intensity, and direction, while incorporating fog and atmospheric effects for added depth and realism. Additionally, it supports particle systems, allowing users to add water particles or dust to enhance the scene's authenticity. This user-friendly addon is ideal for artists and animators of all skill levels.
