Elle May – Lightroom Presets – For Spring:

The Lightroom Presets for Spring set includes 3 presets designed for natural afternoon light in portrait sessions.

"Cheap Film" and "Fields" are optimized for direct sunlight, while "Warm Grains" is best for single light sources through windows or doors.

These presets add a grainy, rough matte feel and evoke a nostalgic warmth with red, yellow, or green undertones.

They can also be used creatively, such as shooting through thin plastic or glass.

Compatible with Adobe Lightroom CC and Classic, for both desktop and mobile (with an Adobe account).

These presets are available for a limited time, and users are encouraged to tag the creators in their photos.
