### What are Weather Icons?

"Weather Icons – 58 Pack" on Videohive to be an After Effects project file that includes a collection of 58 weather-related icons or animations. These icons are likely designed for use in video projects, presentations, or animations that require weather-related visual elements.

Typically, with such AE project files, users can customize and integrate these weather icons into their own video projects by adjusting parameters like colors, sizes, and animations to fit their specific needs. It can be a convenient way to add professional-looking weather graphics to videos, presentations, or other visual media.
