Pentax Digital Filters CreativeMarket-5773069 (XMP): Cloud-Based Lightroom Desktop 1.4 - 4.0 and later, Adobe Lightroom Classic 7.3/10.0 and later, Adobe Camera RAW 10.3/13.0 and afterward, Adobe Photoshop CC 2018 v19.1.3/ 2021 v22.0 and afterward with Camera RAW plugin, Lightroom Mobile 1.3/ / 4.0 through sync and afterward.

!!! Not compatible with the old versions of Lightroom (1-7.2, Such as CC2015.5 and ACR under 10.3), it is not feasible to recreate the profiles As the presets, so please check the edition of this software before purchasing. Again, you will need April 2018 launch (Lightroom v1.3, Lightroom Classic v7.3, ACR 10.3) or later. Sorry, No Refunds.

Produce exceptional visual effects on your pictures with the emulation Of Digital Filters and Smart Effects found from the Pentax cameras, also employ D-Range Compensation, Clarity Controls, Skin Enhancements, and Pentax-like HDR images.

The main plus point about Digital filters is They let Everybody incorporate creative spins to their shots if they're a Photoshop / Lightroom novice.

The Clarity control function is the image-processing Technology effective at replicating the glistening texture of metals and also the clearness of the sky or splashing water.

Advanced HDR is A more artistic variant of the conventional HDR alternative.

Skin Tone correction compensates The color and brightness of the skin.

The Trademarks "Pentax" and"Ricoh" are utilized For identification purposes only.
