What is Goodlight Presets?

Presets are pre-defined configurations of adjustments, filters, and settings that can be applied to photos to achieve a particular look or style quickly. These presets can save time for photographers and image editors by providing a starting point for image enhancement or creative effects.

"Goodlight Presets" could be a brand or a collection of presets created by a photographer, image editor, or a company specializing in photography tools and resources. These presets might be designed to enhance the lighting, color, tone, and overall aesthetics of photos.
