Unreal engine - Multiplayer Shooter Engine 4.0:

Introducing an advanced shooter template featuring a highly flexible movement and weapon system, empowering you to craft your own realistic PvP/Co-op shooter experience.

- **Multiplayer:** Engage in thrilling multiplayer battles with seamless connectivity.
- **Bots:** Enhance gameplay with intelligent AI-controlled opponents.
- **Flexible Vehicle System:** Incorporate diverse vehicles into your game with ease.
- **True First-Person with a Single Mesh:** Achieve realism through a single mesh for first-person perspective.
- **Network Replicated Projectiles:** Experience accurate projectile replication in multiplayer scenarios.
- **First-Person Shadow Based on Third-Person Animations:** Ensure realistic shadows by leveraging third-person animations.
- **Base Movement Capabilities:** Walk, run, sprint, and crouch for dynamic and responsive player movement.
- **Destructible Walls and Breaching Charge:** Introduce tactical elements with destructible environments and breaching mechanics.
- **Co-op Ready:** Team up with friends for cooperative gameplay adventures.
- **PvP:** Engage in intense player-versus-player combat with diverse modes like Deathmatch.
- **Levels:** Explore meticulously designed levels for immersive gameplay.
- **Loadout Editing:** Customize your arsenal for strategic advantage.
- **Sliding:** Execute fluid and responsive sliding movements.
- **Third-Person Camera:** Experience the action from a different perspective with a third-person camera option.
- **Shield:** Utilize shields for added protection and tactical advantage.
- **Barricades:** Strategically deploy barricades for defensive maneuvers.
- **Player Profile System:** Track progress and customize profiles for a personalized gaming experience.
- **Steam Matchmaking:** Seamlessly connect with players using the Steam matchmaking system.
- **Number of Blueprints:** 17

Input: Keyboard, Mouse

Network Replicated: Yes

Supported Development Platforms:

- Windows: Yes
- Mac: Yes
- Linux: Yes

This comprehensive template provides a solid foundation for creating a realistic and immersive PvP/Co-op shooter, with a wide range of features catering to diverse gameplay styles.
