Ezra Cohen - Viewfinder Overlays: Influenced by Arri S16 as well as S35 cameras. Add moments of geometric sci-fi personality + functionality as screen guides!

- Includes black, red, and white alternatives in both HD and also 4K
- Works in Premiere, Final Cut, After Effects, Photoshop, and also more!
- Organized by color/ resolution for drag-and-drop right into any type of task
- (NEW) Includes movement background loops developed from the documents
- Center crosshair layers separate for very easy assimilation right into any aspect ratio
