Coachella Mobile Lightroom Presets Creativemarket 3703793: The festival MOBILE Lightroom Preset bundle includes 10 expertly designed Lightroom presets that are inspired by the dreamy and vibrant styles of summer festivals. It's a fun and vibrant bundle of presets, many of the presets feature the warm, slightly orange, and pinkish appearance, while some ones are cooler and de-saturated. These presets are appropriate for both outdoor and indoor photography, and were designed to work with different light and weather conditions.

These Lightroom presets are ideal for summer, festival photography, travel, and lifestyle however they also work well for food photography and portraits. In addition, the presets all work best on backgrounds that are dark or light backgrounds. I suggest shooting in natural light in overcast conditions or during the morning or the evening golden hours.
