After subscription, You can download it for free from here.

What is a Wedding?

A "Wedding AE Project" a project created using Adobe After Effects (AE) with a focus on wedding-related content. Adobe After Effects is a powerful software commonly used for motion graphics, visual effects, and video editing. In the context of a wedding project, it could involve creating animated elements, titles, transitions, or other visual effects to enhance wedding videos or presentations.

A Wedding AE Project is typically customized for a specific couple, incorporating their preferences, themes, and the overall style they envision for their wedding video. It allows for creative storytelling and presentation of the wedding day in a visually captivating and memorable way.
