Prefabs - Wood Pieces and Platforms:

- Curved bridges
- Tree platforms (additional variants for customization)
- Tree ramps
- Tree spiral stairs sets

This pack serves as a comprehensive resource for enhancing scenes with detailed nature elements, perfect for enriching other kits within the Fantasy series or for crafting dense, enchanted forests favored by Fae and Wood Elves.

Unlike the Orcs pack, which emphasizes modular constructions with scaffolding and wooden components, this Fae pack offers a plethora of trees, bushes, plants, rock formations, flowers, and saplings. While it excels as a standalone kit, it also seamlessly integrates as a meticulous filler for any scene, enriching it with intricate details and magical charm.
