Contains 12 Strong looks Which Have Been Constructed

In the ground up to work with footage from just about any camera.

The LUTs included in your download package includes both .cube documents (that will be the industry standard file type for LUT direction in Video post-production) and also .xmp format that could be used with Adobe Lightroom. In Addition to the LUTs, You'll Also receive a 4 page PDF Manual that will provide you directions for installing and using the LUTs with DaVinci Resolve, Adobe Premiere Pro, Final Cut Pro X, Avid Media Composer, Adobe Photoshop, and Adobe Lightroom.

Below is a breakdown of everything you can expect from the Package:

MOONLIGHT

The Moonlight Collection is optimized for nighttime footage, Delivering crisp colors and one of a kind contrast ratios acceptable for low-light cinematography. The Whole collection was engineered to increase Visibility and vibrancy whilst keeping luminance for constant black levels throughout. Each appearance Delivers an Exceptional variance in color, color balance, And contrast for optimum flexibility amongst varying lighting sources.
