#### Unity Asset - Asset Usage Finder v4.16:

- Your all-in-one asset management solution for Unity projects, now faster and more efficient than ever before!
- Seamlessly locate ALL dependencies and references without any hassle.
- Works seamlessly across Projects, Scenes, and Nested Prefabs for comprehensive coverage.
- Comprehensive Unity 2018.4+ support, including Nested Prefabs and Prefab Variants.
- Search and identify usages of AnimatorController states with ease.
- Locate usages across a wide array of asset types, including Scripts, Shaders, Scenes, Materials, Sprites, Prefabs, Fonts, Textures, and Sounds.
- Explore usages within Prefabs, Scenes, Atlases, Materials, and more.
- Effortlessly replace referenced assets for smooth asset management.
- Discover further usages within the same window and navigate back seamlessly.
- Enjoy up to 20 times faster search capabilities, thanks to advanced caching mechanisms.
- Access and customize source codes for tailored integration with your project.
- Native Unity Editor UI with support for both Dark and Light styles.
- Compatible with popular Unity packages like NodeCanvas, Mecanim, and uGUI for enhanced functionality.
