**FrameStory Explainer Character Animation Toolkit** offers a comprehensive suite of resources for creating engaging animated content.

### How to use tools to create animated content for project design?

You can design your project using "FrameStory I Explainer Character Animation Toolkit with Built-In UI".

With a built-in user interface, users can navigate through over 5000 elements effortlessly.

This toolkit includes 255 characters with customizable features such as clothing, accessories, and facial expressions. It also provides 110 animated scenes, 600 props, and 500 motion graphics elements. Users can easily create their own stories or presentations using the intuitive interface and a variety of pre-made templates.

### "FrameStory Explainer Character Animation Toolkit " Samples:

Notable features include lip-syncing capabilities, high-quality soundtracks, and extensive documentation. The toolkit is compatible with Adobe After Effects and offers full HD resolution. Updates include additional assets like COVID-19 icons and support for the German language, enhancing the toolkit's versatility and usability.

### Package information

The content was last updated on August 7, 2020, and published on May 20, 2020. It's compatible with After Effects CC and includes various files such as After Effects project files, motion graphics template files, scripts, videos, images, vectors, designs, and music. Additionally, it requires certain plugins for functionality.
