HOW TO INSTALL

Mac: go to the Finder and select “Go To Folder...” from the Go menu. Copy and paste ~/Library/Application Support/Adobe/CameraRaw/ into the dialog that follows and you’ll be taken to the folder. Copy everything from the CameraRAW folder of the download into this folder with the same name of you system.

Redo this step with everything from the Lightroom folder of the download. Go to the Finder and select “Go To Folder...” from the Go menu. Copy and paste ~/Library/Application Support/Adobe/Lightroom/ into the dialog that follows and you’ll be taken to the folder.

Restart your Adobe Lightroom. Also, CameraRAW is now ready to work.

PC: copy and paste this into an explorer window: go to: C:\Users\(Your user name)\AppData\Roaming\Adobe\CameraRaw\ and you’ll be taken to the folder. Copy everything from the CameraRAW folder of the download into this folder with the same name as your system.

Redo this step with everything from the Lightroom folder of the download. Copy and paste this into an explorer window: go to: C:\Users\(Your user name)\AppData\Roaming\Adobe\Lightroom
