Presentation With Amy: Office Wear (Videohive 14544251) - AE Project

2025-02-10 17:15:59   label 我要反馈   下载页面

Display the beautiful 3D-animated character in your work.

The sleek and clean character lip-syncs, and the presentation is synchronized in your own voice. Flexible movements and images shown by the characters provide an impressive pull on viewers. The full 3D character is available to join your project. Only available through Videohive.

You can customize the coloring of the character in the way you like. Create natural-looking character actions by combining motion and changing the timing and lip-syncing in line with the voice audio. The whole process can be described as Simple, Easy, Fast!
