Unreal Engine - LUSH: Stylized Environment Set v5.3:

Elevate your game's visual appeal with the LUSH: Stylized Environment Set, featuring 50 stylized and optimized meshes, along with a user-friendly Stylized Water Component. This asset pack is a must-have for those aiming to craft captivating stylized environments, offering a 6-layer Landscape Auto Material that is both easy to use and customize.

- Introduction of a new 'Gravel' Landscape Layer.
- Resolution of black stripe issues in landscapes using 'M_LND_Base' in Packaged builds.
- Demo Level enhancements, showcasing the new Gravel Layer.
- Addition of adjustable camera distance functionality to the Demo player.

StylizedWaterComponent Overhaul:

- More customizable options were added for enhanced flexibility.
- Updates to the 'M_PP_Underwater' post-process material.
- Circular water surfaces are now supported.
- Option to enable fake atmospheric blur and chromatic aberration when underwater.
- Minor bug fixes.

Asset Pack Contents:

- 3 Rocks
 - 1 Long Rock mesh
